

## Ottis Compton

Senior Systems Administrator

Mr. Ottis Compton joined Community Properties of Ohio in June 2022 as Senior Systems Administrator. He has over 27 years of experience in the Information Technology field in both the public and private sectors. In previous tenures he has been responsible for multiple global CRM projects including project management, installations, and support. Other primary responsibilities have included Systems Administration, DevOps engineer, and global steering committee member for company platforms and network design.

Mr. Compton's key focus is to oversee the Information Technology needs of the company while increasing the operational standards, integration capabilities and efficiency of the company's core information systems. He graduated from Wright State University with a Bachelor of Science in Business.
