Sharon Pheifer
Chief Analytics Officer

Ms. Sharon Pheifer joined Community Properties of Ohio in 2006 as Controller. She was promoted to Chief Financial Officer in 2011, and then to Chief Analytics Officer in 2013. She is responsible for analyzing financial and operational data and preparing reports and projections based on the data, and for providing technical leadership and expertise in the areas of HUD, LIHTC, real estate asset management and contract management. Before joining CPOMS, she spent seven years as Housing Controller with National Church Residences, where she was responsible for the financial reporting and audits for more than 200 partnerships, including over 12,000 units. Ms. Pheifer holds an MBA from the University of Colorado, Colorado Springs, and completed all coursework required for her Master of Science in Information Technology from Rochester Institute of Technology.
